PROFESSIONAL SUMMARY

- Third-year B.Tech student in AI & ML at St. Thomas' College of Engineering and Technology with skills in Python, Java, C, HTML, CSS, and JavaScript. Built practical projects including a browser-based audio processing tool. Seeking internship opportunities in software development and AI to enhance technical and problem-solving skills.

EDUCATION

- | | |
|--|---------------|
| – St. Thomas' College of Engineering and Technology | Expected 2027 |
| B.Tech in Artificial Intelligence and Machine Learning | CGPA: 7.32 |
| – Ramakrishna Vivekananda Mission, Barrackpore | 2023 |
| Higher Secondary Examination | 81.8% |
| – Ramakrishna Vivekananda Mission, Barrackpore | 2021 |
| Secondary Examination | 86.43% |

TECHNICAL SKILLS

- Basics of Machine Learning
- **Programming Languages:** Java, Python, C
- **Web Technologies:** HTML, CSS, JavaScript
- **Database:** MySQL, Oracle
- **Core Competencies:** Web Development, Object-Oriented Programming, Problem Solving

PROJECTS

- **E-commerce Management (Java & MySQL)**
 - * Developed an e-commerce platform with product, user, and order management features.
 - * Used Java, MySQL, JDBC, and OOP concepts for scalable backend operations.
- **Audio Trim & Merge (HTML, CSS & JS)**
 - * Built a browser-based tool for trimming and merging audio files.
 - * Implemented drag-and-drop upload and MP3 export functionality.
- **Hospital Management System (Java & MySQL)**
 - * Created a desktop application for managing patients, appointments, and billing.
 - * Applied JDBC and OOP principles for efficient database handling and modular design.
- **COSMEX — Space Explorer (HTML, CSS & JS)**
 - * Developed a space exploration web application using APIs for real-time space and ISS data.
 - * Implemented dynamic UI updates, asynchronous JavaScript, and responsive design.
